Skills

Technical Skills

- Microsoft stack: C#, ASP.NET Core, Web API, MVC, EntityFramework, .NET MAUI.
- Modern web stack: JavaScript, TypeScript, NodeJS, React, Redux, NextJS, HTML5, CSS3, MongoDB, Vitest.
- UI/UX: Figma, Shadcn UI, Tailwind CSS, Material UI, Chakra UI, Bootstrap.
- Infrastructure: Azure, AWS, SQL Server, Docker, Kubernetes.
- Other: Java, Spring Boot, Python, Django, C, Matlab, ArcGIS, Blender.
- Experienced in web development & integration using industry standard technologies and frameworks.
- Experienced with all stages of the Software Development Life cycle and agile methodologies.
- Experienced and knowledge of best practices for software design and architecture.

Interpersonal and Communication Skills

- Client facing skills gained as consultant and IT support.
- Excellent verbal and written communication skills.
- Confident in delivering business or team presentations.
- Experienced in writing detailed specifications and various forms of documentation.
- Fluent in English and Mandarin.

Learning Skills

- Adapting very quickly to various working environments.
- Build up relevant domain knowledge in a short time frame.
- Confident in learning and picking up new technology stacks and frameworks.
- Work on side projects in free time.

Professional Experience

Allsite.ai

Full Stack Developer (Part-time) | Auckland   Mar 2024 — Current

Blurb test

- Test1
- Test2
- Test3

`Powershell` `Bash` `Pulseway` `Microsoft 365 System Administrator` `Entra ID` `Windows` `Linux` `Microsoft Teams`

Civix

IT Support Technician (Part-time) | Auckland   Mar 2024 — Current

Member of a high performing team that delivers technical support to Civix engineers, surveyors, planners, and administrative staff, resolving hardware and software issues.

- Automated routine IT tasks using Pulseway and custom scripts (PowerShell, batch) to improve efficiency and reduce manual intervention.

- Promoted the use of an online issue tracker and maintained a comprehensive IT knowledge base by creating and updating documentation, streamlining support and improving response times.
- Facilitated staff onboarding and offboarding, including laptop/workstation setup and access provisioning.
- Installed, configured, and maintained computer hardware, software, networks, servers, and peripherals.
- Resolved hardware, software, and network connectivity issues via phone, video call, ticketing system, and in-person support.
- Collaborated with cross-functional teams to ensure smooth IT operations across departments.
- Demonstrated strong multitasking and communication skills while managing concurrent support requests.

`Powershell` `Bash` `Pulseway` `Microsoft 365 System Administrator` `Entra ID` `Windows` `Linux` `Microsoft Teams`

Allsite.ai

Software Engineering Intern (Full-time) | Auckland   Nov 2023 — Feb 2024

Developed and implemented advanced geospatial analysis solutions using machine learning, computer vision, and GIS technologies to optimize urban planning and infrastructure design processes.

- Developed a Python script using ArcPy and R-trees to reduce false positives in identifying driveways.
- Built a data pipeline to process 400GB of raw parcel data, integrating road information and supporting multiple file formats including zip and gdb.
- Analyzed housing parcel connectivity with Graph Neural Networks to support layout design and accurately determine centroid locations.
- Modified a UNet++ model to detect impervious surfaces in New Zealand with 95% accuracy.
- Created a predictive function to interpolate and forecast rainfall data across multiple years.
- Implemented a kinematic model for vehicle path tracking to optimize road width and enable dynamic control.
- Engineered a Python script utilizing Unity, Blender, and Esri SDKs to automate the creation of dynamic promotional videos showcasing ArcGIS 3D scenes.
- Contributed to internal knowledge sharing by presenting domain concepts and system architecture in a team-wide learning session, promoting cross-team understanding and collaboration.
- Delivered a final internship presentation to the Allsite.ai team and Civix engineers, showcasing project outcomes and impact; recognized by company leadership in a public post celebrating intern contributions.
